

POWERVOTE SOFTWARES

PowerVote is a group of solutions developed to make your meetings and/or classes more participative and productive, while saving time. Our software programmes allow you to enliven, add dynamism to survey, motivate and evaluate your audience, no matter the context or size of your meetings. A suitable PowerVote solution exists to meet any and all of your needs: training, education, seminars, activities, team building, evaluation, general assemblies, management committees, etc.

POWERVOTE EXPRESS

Create and play a PowerVote Quiz in less than a minute!

PowerVote Express was designed to meet the most common needs of interactive voting keypads' users.

This standalone and free software, that requires **no installation**, will help you design, edit and play a quiz with only a few clicks. The results will be displayed live and a Leader's Board will automatically end your quiz, highlighting the best participants. This version is only available for PC

POWERVOTE QUIZZ (POWERPOINT VERSION)

In just a few clicks, PowerVote Quizz renders your MS PowerPoint presentations (2000 to 2007 versions) interactive (quizzes, surveys, evaluations, exams, etc.).

Voting results in MS Excel

PowerVote Quizz automatically generates the MS Excel spreadsheets necessary for exploiting your voting results: detailed, team-based or individual spreadsheets. These spreadsheets can be completely personalised by the user, though modifiable models are also provided.

Vote results on the Internet

PowerVote Quizz can publish directly on the Internet the votes cast via the voting keypads, in order to accumulate, centralise and/or exploit (analyses, reports, statistics, filters) these data.
